Dear mr. Dinev

With this letter, I want to thank you for the professional interpreting services you provided during the project Plato Bulgaria.

Your input and that of your interpreters was essential for the success of this project. You and your people did a great job.

I have respect for the way you and your Alpha Vitae team facilitated the experience exchange between the Belgian managers, and the participating Bulgarian SME managers. I have respect for your proactive approach, your flexibility, the empathy you had for the Belgian parents and the Bulgarian SME managers involved in this program and your loyalty.

You may use this letter as a reference to future customers as proof of your professionalism. In case future customers ask you for a reference you may use my name. From my side, in case we need interpreters in Stara Zagora, I will not hesitate to contact Alpha Vitae again.

Kind regards

Peter Vanduyfhuys
Managing-director
