## Alpha Vitae OOD, Stara Zagora, Bulgaria

This letter is my personal recommendation for Alpha Vitae OOD, Stara Zagora, Bulgaria. I am the commercial project director of E&Z Industrie-Loesungen GmbH, formerly RWE Industrie-Loesungen GmbH and we are execution a refurbishment of the Maritza East III Power Plant including the turnkey installation of two flue gas desulphurisation plants.

Alpha Vitae OOD started doing translation services for RWE Industrie-Lösungen GmbH at Maritza East III Power Plant Project in Bulgaria as early as 2004, which lasted until they completed their Refurbishment Contract in 2009 and even beyond the formal date of completion. Some of the translations Alpha Vitae OOD made over this period are as follows:

- o Most Contracts and Agreements related to the Refurbishment of Maritza East III – over 2000 pages;
- o Operation and Maintenance Manuals of power generation machinery and equipment including boilers, generators, water treatment plants, motors, gearboxes, pumps, etc. – over 4000 pages;
- o Operation and Maintenance Manuals of the Flue Gas Desulphurization Plant – over 1500 pages;
- o Functional Descriptions of various systems and process flow cycles;
- o Correspondence with the Bulgarian Revenue Agency and the tax authorities including tax audit reports, tax assessment reports, financial statements, returns, etc.;
- o Correspondence with the Labour Office, the Immigration and other Bulgarian authorities;
- o Miscellaneous.

When performing their duties, Alpha Vitae OOD spared no efforts at all to meet our high standards and expectations and Alpha Vitae OOD were never late in completing their tasks no matter of the tight deadlines.

The management and the employees of Alpha Vitae OOD were always of an outgoing and friendly disposition. Beside their tasks Alpha Vitae OOD were of great assistance to me in explaining the Bulgarian rules and regulations being the background for some translations.

Sincerely,

E&Z Industrie-Loesungen GmbH

Klaus Toennishoff  
Commercial Director
